Original by-laws passed in 2019 are amended as set out in by-laws passed in 2021 as listed above.

This document is intended as a guide.

Refer to the approved by-laws and consult with County or municipal staff to determine charges that apply to specific development proposals. The by-laws are available in full at Customer Service in the Oxford County Administration Building during regular business hours (weekdays from 8:00 a.m. to 4:30 p.m.). They are also available on the County website at: www.oxfordcounty.ca/developmentcharges.

In addition to the County Development Charges, most area municipalities in Oxford County also have Development Charges by-laws. Refer to the Building Department of the area municipality or follow the website link above to the summary tables for information regarding the municipal Development Charges, where provided.

PURPOSE OF DEVELOPMENT CHARGES

Development Charges are used to finance capital works required for new housing and non-residential development. The county-wide by-law applies to most new residential and some forms of non-residential development on lands within the boundaries of Oxford County. Development Charges generated from the county-wide charge go toward growth-related costs associated with growth-related studies, land ambulance, roads, waste diversion, and library services. The water and wastewater by-laws apply specifically to development of lands within a geographic area defined in each by-law that generally corresponds to the service area named in the title. Development Charges generated from these by-laws go toward growth-related costs associated with the provision of water and wastewater infrastructure. All County Development Charge by-laws were passed under the authority of the Development Charges Act, (1997) on March 24, 2021.

SCHEDULE OF CHARGES

The County schedule of Development Charges is summarized in the tables below and on the following page. For area municipal charges, please refer to the appropriate municipal by-law as amended. The schedule sets out the charges that are applicable to residential development by unit type: single and semi-detached dwelling units; apartments; and other multiples. Charges applicable to non-residential development are levied per square metre of gross floor area and per wind turbine. To determine the total County charge, add the county-wide charges to the applicable area-specific charges for water and wastewater. For areas not serviced by municipal sewer and water services, only the county-wide charge applies. The County Development Charges will be indexed on April 1st of each year in accordance with the annual change in the Statistics Canada Construction Price Index.
