Dear Council,

Re: PW 2021-25 - Community Safety Zones Criteria and Warrant Process

Thank you again for the opportunity to review and comment on the proposed Community Safety Zones Criteria and Warrant Process. Further information and review of the County staff report was brought to Norwich Council at its meeting August 10th, and Council directed the following feedback for consideration:

Concerns have been identified that the requirements to meet Warrant 1 – Designated Areas, may preclude opportunity to designate areas where on-going speeding issues are identified (and documented). It is suggested that an additional item be added under Warrant 1 to provide that locations with documented operating speeds significantly in excess of the posted speed limit (i.e. the 85th percentile > 10 km/h over posted speed limit) be considered also. These locations would then still need to meet the criteria under Warrant 2 as drafted.

Thank you for your consideration of this suggestion.

Yours truly,

Kyle Kruger
CAO/Clerk
